

2011

*Happy New Year*

January 2011

## Best New Year's wishes to all our eNews Readers!

It is a very nice tradition that a new year's letter contains intentions for the coming year.  
**Let me write in the name of Nemetschek Scia our challenging objectives!**

### We will:

- \* Continue our efforts in **developing** state-of-the-art software to better help you to design and fabricate engineering structures worldwide. Important improvements will be seen in our software portfolio
- \* **Inform you** during breakfast sessions and seminars on **technical progress** on building codes, **software technology** and **design practice**; special attention will be given to show the breakthrough evolutions in BIM (building information modelling) and in web applications
- \* Publish the **Nemetschek Engineering User Contest** book on paper and in an eBook, illustrating the great engineering skills of our clients
- \* **Exhibit** in various shows from München (Baumesse in January) to Dubai (Big 5 in November), from Sao Paulo (Concrete show) to Paris (Batimat)
- \* **Strengthen our community of users** by stimulating networking activities and visit many companies to understand your wishes and needs
- \* Address various segments of the construction industry, from engineering consulting offices, over contractors and manufacturers to scaffolders, plant designers and governmental bodies; therefore we will **increase our staff** in several regions
- \* Focus on **increasing the quality** of our operations in order to help you with even better software, to help you in acquiring more projects and be more efficient in your daily work

**We wish you and your family a healthy and successful New Year 2011!**

On behalf of the entire Scia team

**Jean-Pierre Rammant**  
CEO Nemetschek Scia
